

workforce management
made easy

ITR Pix 28

A durable, small and easy-to-use time clock for your payroll and job cost needs.

- Automatically changes year, month and date
- Programmable print styles, military or regular time
- Prints in minutes, hundredths, tenths and seconds

ITR supports its customers through a network of regional offices and a central Customer Care Center.

Ideal for Companies Requiring Accurate Accounting of Employee Time

The Pix 28 time clock is a robust solution capable of managing all the time and attendance needs of your workforce. Pix 28 prints 4 digit minutes, years and notations and can be programmed to allow for 6 digit automatic consecutive numbering. In addition, its large display area shows time including seconds.

Perpetual Calendar

Pix 28 automatically advances year, month and date – no need to remember to reset!

Daylight Savings Time

The time automatically adjusts for Daylight Savings Time – each and every year.

Built-In Battery Backup

3 year built-in battery backup ensures your clock maintains clock and program data during power failure.

ITR Pix 28

ITR's functionality and feature-rich data collectors deliver measurable results and quick return on investment.

Features

- Internal calendar automatically adjusts for Daylight Saving Time, leap years and short months
- Memory backup for power failures
- Prints years in 2 and 4 digits
